# concrete clear constructivist

Museum Haus Konstruktiv

### Art in its purest form

Color, line, surface. Nothing is random. Everything follows a plan. All that counts is what there is. Clear and geometric. Haus Konstruktiv is the leading Swiss institution for constructivist, concrete and conceptual art. Established in 1986 as a foundation in the context of Zurich's concrete art scene, it has long since become internationally renowned.

We address the history of non-representational art. From Russian constructivism to de stijl and the Bauhaus, through to the minimal and conceptual art of the 1960s.

# creative courageous curated

Exhibitions

### Constructivist and cutting-edge

History that lives. Art that thinks ahead. The exhibitions at Haus Konstruktiv bring art-historical heritage into the present. Tradition meets innovation. Contemporary concepts are reflected in works from the past. Rethinking the old. Anchoring the new.

Fritz Glamer  
Rockereller Dining Room, 1963/1964

# cultural cherished concentrated

Collection

### An archive of gems

Over 1000 artworks. An infinite number of stories. Purposefully brought together and constantly expanding. With a scope that encompasses paintings, graphics, objects and installations. Each piece is part of the history of constructivist-concrete and conceptual art. A collection that remains visible. On site and digitally. Accessible for everyone.
